

## Grants

Pharmacosmos Therapeutics is committed to partnering with medical, scientific, patient, and civic organizations to support their programs and activities, such as health education and scientific research. This support takes many forms, including educational funding requests, charitable contributions, scholarships and fellowships, and independent research.

### Independent Medical Education (IME)

Pharmacosmos Therapeutics supports grants for independent medical education in an effort to further the advance of medicine and health care by improving the knowledge of the medical community. Independent Medical Education is defined as education that is evidence-based, fair-balanced, unbiased, planned and implemented independent of industry influence, and free of bias. Pharmacosmos Therapeutics is actively seeking applications for IME activities for healthcare professionals, teams, patients, payers and systems designed to:

- Improve knowledge, enhance skills, and support behavior change
- Close clinical and practice gaps
- Improve the quality and delivery of patient care
- Enable patients to take an active role in their healthcare

Entities eligible to apply for support include:

- Hospitals, academic medical centers, and medical schools
- Medical associations and societies
- Medical education companies
- Publishers of medical and scientific publications

Grant requests must identify unmet educational needs of a target audience and demonstrate how the program will address the unmet educational needs, and encourage the improvement of medicine and healthcare.

### Scholarships or Fellowships

Scholarships and fellowships are grants to independent professional organizations, independent charitable organizations, or other eligible institutions, where the funds are used to support advanced study by clinical and research professionals at an accredited university or teaching institution. The recipients of all scholarships and fellowships must be determined by the relevant training institution or medical association, with no involvement from Pharmacosmos Therapeutics. The scholarship/fellowship must be open to all qualified candidates in a reasonably defined geographic or therapeutic area, and the application and selection process must be clearly defined and widely published. Grants must be given directly to the academic or training institution and not to an individual HCP or individual candidate.

## Charitable Contributions

We provide funding to qualified 501(c)(3) or otherwise IRS tax-exempt charitable organizations and support programs and activities in local communities as well as national initiatives.

## Independent Research Activities

The Pharmacosmos Therapeutics Investigator-Sponsored Study (ISS) program provides an opportunity to academic and community-based physicians and researchers interested in conducting their own research to apply for research support. More information on this initiative can be obtained by contacting your regional Medical Science Liaison (MSL). If you do not know your regional MSL, please reach out to our Medical Information department via email ([MedInfo@Pharmacosmos.us](mailto:MedInfo@Pharmacosmos.us)) or phone ([888-828-0655](tel:888-828-0655)), 9:00 am – 5:00 pm EST, Monday - Friday.

## How to Apply

Requests can be made directly via email to [Grants@Pharmacosmos.us](mailto:Grants@Pharmacosmos.us) and must include the following to be considered complete:

- Grant request form (please email [Grants@Pharmacosmos.us](mailto:Grants@Pharmacosmos.us) or ask your MSL for a copy)
- W9, plus 501(c)(3) paperwork if appropriate.
- Request letter signed on requestor's letterhead.
- Grant proposal with agenda/ program details.
- Full budget information for the activity, including portion of budget directly being requested from Pharmacosmos Therapeutics.

## Process

Once the full grant request package is received, it is reviewed at the next Grants Review Committee meeting, held on a monthly basis. Once a decision is reached, you will be notified via email.

## Open Payment (Sunshine) Reporting

Any support provided by Pharmacosmos Therapeutics is not intended to encourage the prescription, supply, administration, recommendation, purchase, or sale of any Pharmacosmos Therapeutics product. Pharmacosmos Therapeutics adheres to The Physician Payment Transparency Program (commonly referred to as the Sunshine Act and Open Payments) and will report all appropriate payments to covered recipients. To ensure compliance with relevant laws and regulations, all transfers of value (i.e. payments and product provision) are tracked and reported in accordance with the relevant local regulations.

If you have additional questions about any program described here, please contact your local MSL or write to us at [Grants@Pharmacosmos.us](mailto:Grants@Pharmacosmos.us).
